### **God (Goddess) the Astrologer, Soul Karma and Reincarnation, How We Continually Create Our Own Destiny**

systematically reveals the lost links between religion, science, destiny and free will. It is a clear guide to how the Divine actually manifests in the material world and how we can cooperate. It explains the true spiritual relevance of astrology in our lives and offers the profound revelation that God is the Original Astrologer.

### **God (Goddess) the Astrologer, Soul Karma and Reincarnation, How We Continually Create Our Own Destiny**

- **The 5 most important factors that affect who you will become.** Revives the ancient Five-Element Scientific model that will empower you to quickly interpret and interact successfully with the world around you.
- **The significance of astrology in our everyday lives.** Reveals the previously secret Eastern knowledge about your unique body type and explains why this is the missing key to your health and relationships.
- **How to come face to face with your destiny, and how to change it.** Provides you with a process-oriented method of examining cause and effect that demonstrates exactly how everything in nature is being created, maintained and destroyed.
- **How astrology can be used as a tool for spiritual growth.** Simplifies the interconnections between karma, reincarnation, the angelic beings, astrology, yoga, God's individual plan and the ultimate destiny of the soul. Establishes Vedic astrology, the mystical language of the heavens, as the lost science that unites and explains all of these subjects.
- **How spiritual understanding can balance the dangers of modern technology**
- **Clearly shows the existence of a personal God and that God has both male and female aspects.**

This book offers readers the opportunity to decide if they will cling fearfully to the random beliefs with which they were programmed or consciously choose to redefine themselves. This book offers the ultimate adventure, the opportunity to search for truth, wisdom and knowledge from the perspective of both modern science as well as in the great knowledge of past cultures.

The truth of this book appeals to Ayurvedic, alternative health care, and yoga practitioners, astrology fans, Eastern philosophy buffs, and all seekers of universal truth and enlightenment.

*“The knowledge in the Vedas is vast and complex and Jeffrey has done a great service by presenting this treasure house concisely and accurately without coloring it with sectarianism or unnecessary personal agenda.”* Ron Marinelli, Los Angeles, CA

*Incredible! I've read it twice so far - I couldn't put the book down!*
